Subject: Headset Support

Thank you for the prompt repair of my headset (SN 111102029). I just completed my first 4-day rotation with the repaired headset and it worked perfectly. I was very pleased to return from 2 ½ weeks away on other business and to find my repaired headset waiting to be used on my next trip. As an airline Captain on the Boeing 737-300 I rely on the noise canceling properties of your excellent headset to preserve my hearing for my retired years, and really miss it when I have to fly without it. Thanks again for an excellent product and excellent post sale support.

Best Regards,
Jim Bettcher
